

Cat Litter for Med Disposal

For disposal of medications—do not flush medications down sink or toilet. Use cat litter or coffee grounds to make medications more difficult to find and use by drug-seekers.

1. Scoop a few spoonfulls of cat litter into plastic bag or container.
2. Add crushed medication (pills) or pour liquid medication into litter.
3. Close bag or container and place in household garbage.

The Medication Disposal Kit in client home, _____, is located in the following location: _____.
